IC Designs, Inc.
 Notes to Interim Financial Statements
 September 30, 1993

1. Interim Statements:

In the opinion of management, the accompanying unaudited financial statements contain all adjustments (consisting solely of normal recurring adjustments) necessary to present fairly the financial information included therein. While IC Designs believes that the disclosures are adequate to make the information not misleading, it is suggested that this financial data be read in conjunction with the audited financial statements and notes thereto for the year ended December 31, 1992.

2. Income Taxes:

IC Designs adopted Statement of Financial Accounting Standards No. 109 (FAS109), "Accounting for Income Taxes". The adoption of FAS109 changes the method of accounting for income taxes from the deferred method (APB11) to an asset and liability approach. The impact of adopting FAS109 was not significant.

Item 7 (b) Pro Forma Financial Information

Included are the unaudited pro forma condensed balance sheet for Cypress Semiconductor Corporation at September 27, 1993 and the related pro forma statement of operations for the nine month period ended September 27, 1993. Also included is the pro forma statement of operations for the year ended December 28, 1992.

On October 22, 1993, the Company acquired 100% of the common stock of IC Designs, Inc. (ICD) for \$16 million cash. ICD became a wholly owned subsidiary of the Company and the historical income

tax basis of its assets and liabilities carried over. In connection with this acquisition, the Company also entered into non-competition agreements ranging from one to five years with certain directors and employees of ICD for an aggregate payment of \$4 million. In addition, a separate incentive compensation program was established for the senior management of ICD providing for an annual bonus pool based on ICD's future pretax profits.

The following unaudited pro forma financial information reflects the acquisition of ICD under the purchase method of accounting. The pro forma financial information gives effect to the acquisition as if the transaction had taken place on September 27, 1993 for the pro forma condensed balance sheet and the beginning of 1992 for the pro forma condensed statements of operations.

The unaudited pro forma statements of operations are not necessarily indicative of the operating results that would have been achieved if the transaction had occurred on the dates indicated and should not be construed as representative of future operations. The historical financial statements of ICD are included elsewhere in this filing, and the unaudited pro forma financial information presented herein should be read in conjunction with those financial statements and related notes.
